THERMALLY IMPROVED WINDOWS & PATIO DOORS

CONTEMPORARY STYLE WITH TIMELESS BEAUTY
STRONG AND DURABLE

Contemporary style. Strong and beautiful.

Milgard Thermally Improved Aluminum windows and patio doors beautifully accentuate the clean, thin lines of contemporary design, combined with strength and durability that lasts.

For years, architects and builders have specified aluminum windows and patio doors when projects called for combinations with large glazing areas to accentuate maximum views.

It's tough to beat Milgard Thermally Improved Aluminum windows and patio doors for their narrow sightlines, design flexibility and lasting value.

THERMALLY IMPROVED ALUMINUM | A250 OFFERS:

- Clean lines and narrow frames for a contemporary look
- Includes a polyurethane channel to reduce thermal transfer and improve energy efficiency
- High quality components that start with the rollers and go all the way to the frame itself
- SunCoat® Low-e glass is standard for energy efficiency and helps protect against fabric fading
- Replacement and new construction options
- The Milgard Lifetime Limited Warranty

Define Your Home with Windows

Milgard Thermally Improved Aluminum windows can be combined to build just about any configuration you can dream up. The narrow sightlines coupled with its inherent strength inspire design freedom and the Milgard commitment to quality provides peace of mind you can count on.

Energy Efficiency

Tested and Built for Your Climate

At Milgard, we help homeowners like you make an impact on their energy consumption by offering energy efficient windows and patio doors designed for your homes comfort. Our thermally improved windows and doors include a polyurethane channel to reduce thermal transfer and improve energy efficiency.

We make it easy to meet local energy codes and green building efficiency standards with a selection of energy packages you can tailor to your specific climate. We conduct thermal simulations to improve energy performance and we adhere to ENERGY STAR® v6 requirements that meet or exceed U-Factor and Solar Heat Gain Coefficient (SHGC) criteria in the areas we serve.

ZONE	U-Factor	SHGC
ENERGY STAR v6 Northern	0.27	-
ENERGY STAR v6 North-Central	0.30	0.40
ENERGY STAR v6 South-Central	0.30	0.25
ENERGY STAR v6 Southern	0.40	0.25

Your energy efficient windows could include one or more of the following features based on your climate.

- SunCoat® or SunCoatMAX®
- EdgeGardMAX™
- Argon
- 4th Surface Low-e

THERMALLY IMPROVED ALUMINUM FEATURES A POLYURETHANE CHANNEL TO REDUCE THERMAL TRANSFER AND IMPROVE ENERGY EFFICIENCY.

Why Milgard Windows & Doors

Quality

Milgard offers award-winning windows and patio doors built for long-lasting comfort. For over 50 years, industry experts have consistently recognized Milgard as a trusted brand. Milgard products have been ranked among the Best of Houzz Design five years in a row.

Experience

Since 1962, Milgard has designed and assembled superior custom-made windows and patio doors for replacement, remodeling and new construction. Milgard is known for their industry-leading designs, using patented technologies, that help make your home more comfortable.

Service

We have always taken great pride in our ability to provide exemplary customer service. We believe that being close to our customers allows us to provide a better service experience. You'll find Milgard factory trained technicians near you in the Western U.S. and Canada.

Warranty

We have a dedication to quality and build our windows and patio doors to last. With Thermally Improved Aluminum Series, you're covered for as long as you own your home with our Lifetime Limited Warranty. See complete details at **MILGARD.COM/WARRANTY**
