AAMA GOLD CERTIFICATION

Every Simonton built Narrow Frame Patio Door is AAMA Gold certified, passing the industry's toughest standards. This quality assurance testing delivers durable, weather-resistant and energy-efficient products for your home. Learn more at simonton.com/aama-gold.

*Coverage varies on options selected.

Enjoy the view. Love the performance.

Designed to shield your home from the elements, the Narrow Frame Patio Door is made of virtually maintenance-free vinyl and provides a lifetime of easy-glide operation, energy efficiency and interior comfort.

Weather Resistant

Integral interlock and perimeter fin seal weatherstripping creates a tight barrier against air infiltration.

Energy-Efficient Glass

Standard ¾" insulating glass unit, ProSolar® Low-E glass, Intercept® spacer system and an Argon gas fill work together for energy savings and comfort during every season.

Strong & Quiet

Durable double-strength, tempered glass increases safety and reduces sound transmission.

Safe & Secure

A single point lock handle and external keyed lock secure the door panel.

Quality Construction

Fusion-welded frame and panels increase strength and add protection against air and water infiltration.

Durable Design

Low rise pocket sill offers superior structural performance

Custom Look

Transoms and sidelites are available for a dramatic appearance.

Smooth Operation

Adjustable, corrosion-resistant rollers allow door panels to easily open and close for the life of the door.

Flexible Installation

Multiple frame options deliver precise installation for either replacement or new home applications.

Fresh Air

A durable extruded screen frame features a crease-resistant fiberglass screen mesh that helps keep bugs out.

Increased Safety

Upgrade to a multi-point locking system or select a footbolt that allows partial ventilation while the door is secure.

Options that Inspire.

Available in 2- or 3-panel door styles along with a wide selection of colors, grille patterns and hardware options that will complement your unique design style.

Standard Colors

Decorum
BY SIMONTON

Increase style and enhance your home's curb appeal with bold exterior colors, add warmth with an interior woodgrain and select hardware in distinct metallic finishes that complement your drawer pulls, faucets and lighting.

Custom Woodgrain Interiors*

* Interior only/standard white exterior and Dark Bronze hardware

Custom Exterior Colors**

** Exterior colors are not available on Driftwood products.

Standard Hardware

Custom Hardware

Grille Patterns

Highlight the architecture of your home with a distinctive grille pattern.

Grille Profiles

Grilles between the glass provide a smooth surface for easy cleaning, while simulated divided lites have the traditional appearance of individual glass panes.

Consult your Simonton representative for available features and options.

Energy Savings. Interior Comfort.

The Simonton Narrow Frame Patio Door is constructed of premium vinyl that provides excellent insulation and has a standard insulating glass unit with Low-E glass, gas fill and a warm-edge spacer that can be customized for maximum energy efficiency for wherever you live.

IN WINTER,
LOW-E GLASS
HELPS RETAIN
WARMED AIR

IN SUMMER,
LOW-E GLASS
HELPS DEFLECT
HEAT

ALLOWS DESIRABLE
LIGHT INSIDE

HELPS DEFLECT
UP TO 92% OF
DAMAGING
UV LIGHT

ALLOWS PASSIVE
HEAT INSIDE

HELPS DEFLECT
UP TO 71% OF
DAMAGING
UV LIGHT

ProSolar Low-E Glass

- Standard glass helps keep warmth inside during winter months and deflect the sun's heat and retain cooled air in summer
- Screens out up to 73% of ultraviolet (UV) rays that can cause interior fading

ProSolar Shade Low-E Glass

- Ideal for **warmer climates** that require help with solar control and interior cooling
- Superior insulating performance

ProSolar Sun Low-E Glass

- Perfect for **cooler climates** that require more help with heating
- Uses the sun's warmth to increase comfort and reduce heating costs

Gas Fill

Standard Argon gas, which is six times denser than air, is sealed between the glass panes to increase insulation and reduce energy loss. Twelve times denser than air, optional Krypton gas can be chosen for maximum thermal efficiency.

Storm Protection

SafePoint® glass helps withstand extremely high winds and flying debris in areas requiring Level C impact-resistance providing 24/7 protection.

Spacer Systems

The standard **Intercept®** spacer system has a U-channel design that keeps glass warmer and flexes and contracts for to reduce seal failure.

The **Supercept™** spacer system utilizes a stainless-steel alloy that offers increased durability and thermal efficiency.

Increase Privacy

The textured pattern of obscure glass helps maximize privacy while allowing desirable sunlight inside.

Tinted Glass

Help control solar heat gain, reduce glare and visibility into your home with bronze or gray tinted glass.

Sound & Security

Laminated glass consists of a durable interlayer sealed between two layers of glass that resists forced entry, reduces unwanted noise and deflects up to 99% of damaging ultraviolet (UV) rays that can cause interior fading.

Simonton offers **regionally specific ENERGY STAR®** glass packages designed to deliver optimal energy performance and comfort for all areas of the country.
